

THE TRANSPORT

Did you know that the transport is the main cause of polluting the air and, implicitly, of the climate changes?

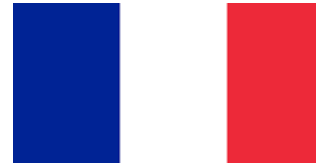

Use a means of transport able to satisfy the needs of mobility and to protect the environment:

- Choose the public transport;
- Give up on your personal car as often as possible;
- Choose walking or riding the bike.

Fighting against pollution

COLLEGE
LUCIE AUBRAC,
Tourcoing,
FRANCE

SCOALA
GIMNAZIALA
MAGURA, Buzau,
ROMANIA

NELSON MANDELA
SCHULE, Bochum,
