*Development of competences
for environmental protection
to fight against climate
changes*

2020-1-AT01-KA229-077939_3

Objectives

- recognize the difference between climate and weather
- identify natural and human created sources of greenhouse gases
- explain why climate change is a global occurrence, not a local one
- get informed about renewable energy
- build intercultural competences
- own and share genuine European values

We want to educate our young participants become strong defenders of the Nature while acquiring or developing new/existing competences related to social behavior, school performance and emotional intelligence.

Activities

- Let's get to know ourselves and others in our common home - EARTH.
- Let's build a Nature-friendly school while developing the school culture for sustainability - WATER.
- Let's find out about renewable energy - AIR.
- Let's tell others what we know - PEOPLE.
