Erasmus+ Programme  
of the European Union

## ECOLOGY-Together for a Greener Future!

As part of our Erasmus+ project, we organized several meaningful environmental activities aimed at raising awareness and promoting sustainable change.

ERASMUS+ ACCREDITATION AT MĂGURA SECONDARY SCHOOL

Project code 2025-1-R001-KA121-

# Growing a Sustainable Future

Erasmus+ project focused on promoting environmental awareness, sustainability, and responsible citizenship among young people across Europe. The project aims to inspire participants to understand that real change begins at the roots – with individual actions, community involvement, and respect for nature. Participants will learn to adopt greener habits, develop creative solutions for reducing waste, and engage in hands-on environmental projects that connect them with the natural world.

*Green Project*

The project empowers young people to become active agents of transformation, capable of building a more sustainable and harmonious future for our planet. 🌿

# Activities

## Clean-up Day

We dedicated one day to collecting waste around our school and in the local community. Students, teachers, and volunteers worked together to help clean the environment and learn the importance of reducing pollution.

## Eco Art Workshop – Art Project

We created a symbolic tree using painted handprints as leaves. Each child painted their palm and added it to the branches, showing how every small action can contribute to growth and change. It was a creative and emotional moment.

## Tree of Change – Planting

We planted a small fir tree in our school yard. This act represents our hope for a greener future and our long-term commitment to protecting nature.

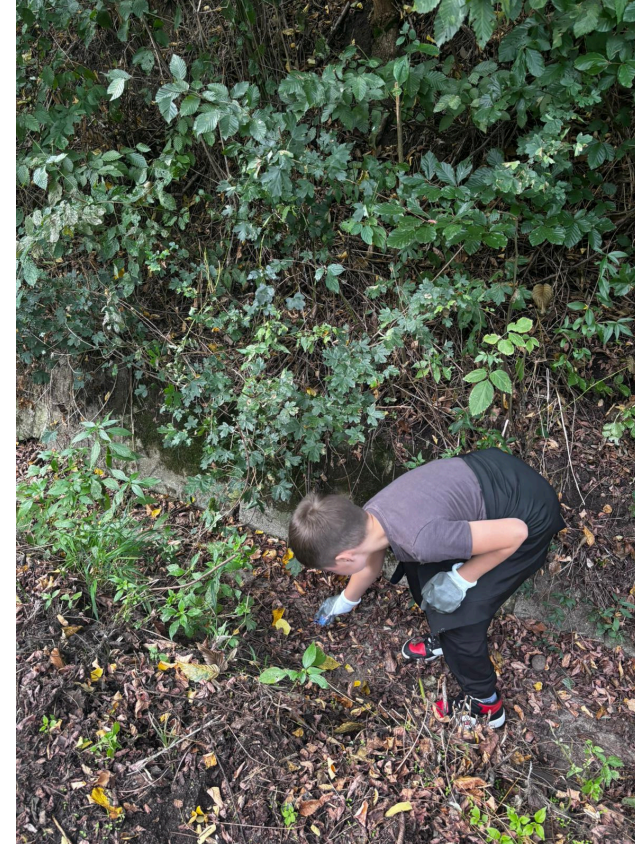

## Visit to GreenWEEE

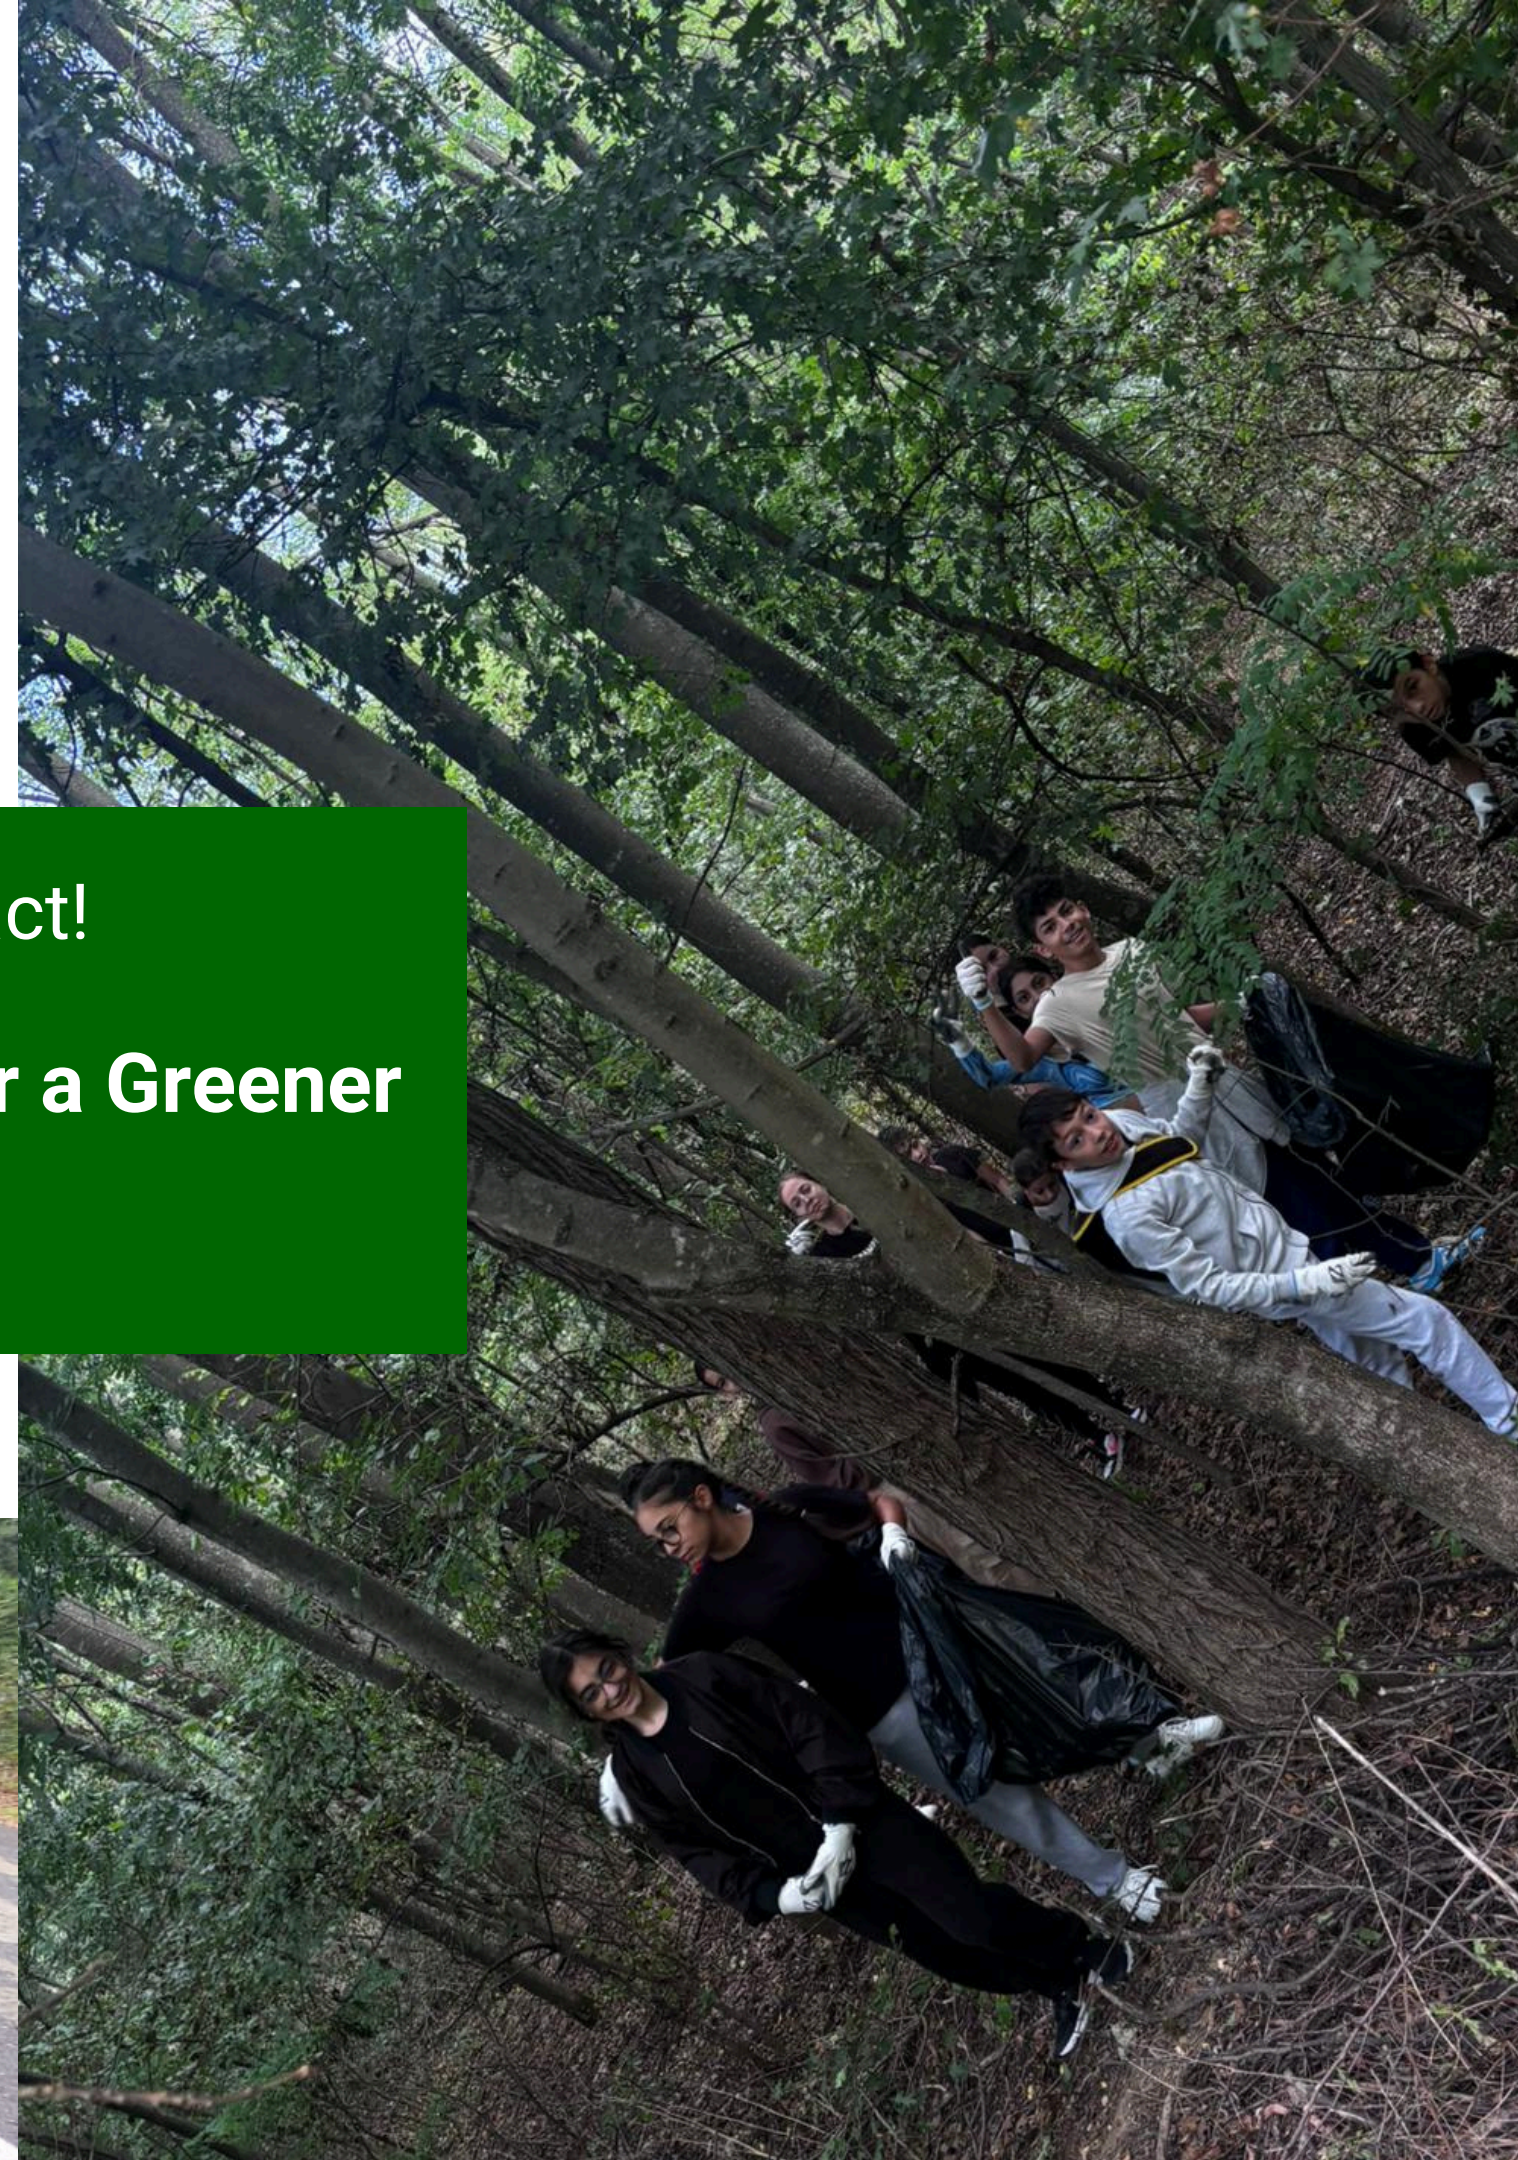

# Clean-up Day

A community activity where we work together to clean nature and raise awareness about waste and pollution.

*A clean environment, a better future*

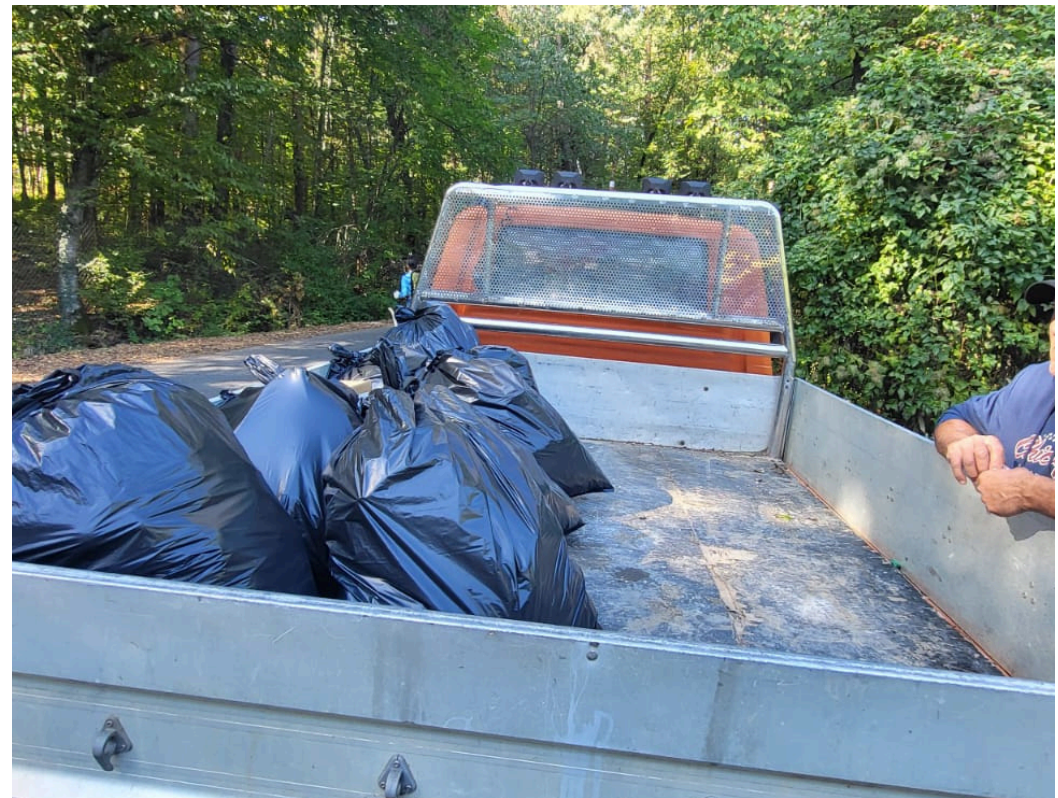

**Small Hands, Big Impact!  
Let's Clean Today for a Greener Tomorrow!**

Grow Ideas, Shape the Future!  
From Roots to Results – Let Change Grow!

# Art inspires respect for nature!

Grow Ideas, Shape the Future!

From Roots to Results – Let Change Grow!

# Tree Planting

Plant a Tree, Grow a Dream!

Each tree planted is a step toward a cleaner, greener, and healthier future. Through this simple yet powerful act, children learn the value of nature, responsibility, and caring for our planet. It's a small gesture with a big impact for future generations. 🌍🌱

# Visit to GreenWEEE

Is the market leader in Romania for collecting, treating, and recycling Waste Electrical and Electronic Equipment (WEEE/DEEE), batteries, and automotive components. Located just outside Buzău on the Frasinu Industrial Park platform, the facility is part of GreenGroup, contributing significantly to Central Europe's circular economy.

Recycle smart,  
protect the planet.

Together for  
a greener  
world.

# Conclusion

These activities helped us understand the importance of protecting the environment. Together, we can build a cleaner community and a greener future.

Let's continue to grow, inspire, and protect the world around us. Because change starts with us – and it starts now.

Small steps, big  
changes for our  
planet
